

○Paths after Graduation - Undergraduate Schools

1. Further education

Going on to higher education can help students to deepen further their learning in universities for four years . OIU students aim to realize the paths they are pursuing with support from their professors. By going on to graduate school, students can conduct additional research to develop skills and knowledge in specialized fields.

Here we will show you the datum on the status of student admissions. Going on to graduate school is also effective for getting jobs that require more advanced skills.

In order to realize the paths that students are pursuing, professors in charge of seminars and faculties in the field of specialization carefully support these students not only by education in specialized fields, but also by through advanced counseling and examination guidance.

Many students have advanced to graduate schools of our university as well as graduate schools of other universities.
